558 D - DRUM

SHAFT IN OBEICHE WOOD, COATED IN BEECHWOOD.

Model with a height of 44cm and a diameter of 42cm. It is also possible to order a spare skin at € 12,00 or the drumstick at € 8,50. Available in stock.

Weight: 3 Kg.=24 Kg./volume.

For a minimum order of 2 pieces, production time of a week and cost of just 99 euros, have your own personalised drum in your favourite team colours. The main photo shows a personalised drum with a segment pattern. Click on the photo to see other available designs, including plain-colour, flamed, vertical-stripe, horizontal-stripe and diamond patterns.

With a further supplement of 15 euro each, lastly, it will be possible to insert a logo while retaining the personalised background colour requested.

The advantage of having your own personalised drum is not just in the striking, colourful impact it makes – the drum is actually stronger and more resistant because it has a second metal sheet on which your chosen colours are applied.

Drums can be personalised with any colours and pattern proportions you like, and feature a letter of the alphabet. When ordering personalised drums, just specify your choice of letter and colours in the notes section of the order form.

The dynamic photos show a basic model. Drum sticks and spare leather drumheads can be ordered separately by adding the item to your shopping cart and selecting the corresponding model.

The electronic order form may indicate an incorrect price for some versions of this item. The price will be automatically corrected when the sum total including freight charges is sent.

559 D - COMPRESSED AIR HORN

ONLY THE RECHARGE CANISTERS ARE CURRENTLY AVAILABLE.

Euro 1.5000 x 1

560 D - WHISTLE

Made from plastic and packed in multicoloured bags of 100 pieces.

Available in stock. Weight: 3000 pieces = 11 Kg.

Price indicated per box of 100 pieces.

min. 1: Euro 12.5000 x 1

561 D - Megaphone

The best price/quality ratio: model RCF 80 MG with a range of 500 metres, 25W.

Available in stock. Measurements/volume: 5kg.

Euro 65.0000 x 1

619 - BANG BANG

Plastic clubs, available in pairs, that can be used as clapping hands after they have been inflated in order to create more din during specific stages of the competition. They are ideal to create special sound choreographic effects and display the colours of your squad. The club has a safety valve that prevents the release of the air. The valve must be tightened with one's teeth or 2 fingers to facilitate inflation. The price is per pair.

Size: cm.58x10cm, 50 Pairs = Kg.3.

Colours available: white, red, green, yellow, orange, blue and black. Available in stock.

min. 1: Euro 0.7500 x 1

663 - INFLATABLE HAND

To be seen and heard: by putting your arm in the specific pocket, your hand becomes gigantic and very expressive! You will get the most noise if you clap 2 hands together! Each inflatable hand is folded and comes in a practical pouch that fits comfortably in your pocket. The pouch also contains instructions and the needle to inflate and deflate the hand. Size of the inflated hand: 35x54 cm. We recommend not over-inflating the hand so it can be used again. 8 colours available for delivery while quantities last. 500 pieces = 12 kg

min. 1: Euro 0.8000 x 1

664 - CUSTOMISED BANG-BANGS

Customised bang-bangs different from those held in stock may be ordered by placing a minimum order for 3,000 pairs.

If the 3,000 pairs consist of partial orders for smaller quantities of different coloured bang-bangs, a minimum partial order of 500 pairs is applicable.

Made of polyethylene. Size: 60cm x 10cm.

Mouthpiece provided for inflation.

The main difference is that this model can be completely customised on the basis of scale drawings provided by customers. Please send your scale drawing in EPS-PC or Adobe Illustrator format.

Average production time of approx. 60 days.

Weight/3,000 pairs = 72kg.

The price shown at the bottom of the page is for 1 order of 3,000 pairs, customised using one colour on one side only.

A surcharge will be applied in the following cases:

- printing of more than one colour, with the exception of white, which will not be counted;
- customised print on both sides;
- choice of a shape different from the classic bang-bang outline. Click on the main photo to view alternative shapes available.

If any of these 3 options is chosen, the price of the order will not be shown automatically.

A couple of days will be needed for the specific quotation to be calculated.

min. 1: Euro 2190.0000 x 1

665 - TRUMPET/MEGAPHONE

A versatile item which transforms from a trumpet to a megaphone and vice-versa by simply lowering a lever, without the need for electric batteries or air cylinders.

Sound quality is good, though naturally not equivalent to the more specific items featured on this page.

But with such a low price, you can order a higher quantity and distribute them more widely throughout the terraces.

Orders for prompt delivery will be filled with ASSORTED COLOURS, though we will try to send colour combinations as close as possible to those requested, where warehouse stocks permit.

With a minimum order of 120 pieces and approx. 15 days delivery time, specific colour combinations can be ordered, choosing from: red-white-green; red-blue; white-royal blue; red-black; yellow-red; black-royal blue; black-white.

Trumpets measure 40cm in length. A box of 24 pieces weighs 3.5kg, with volumes of up to 19kg sent in Italy, and 11kg abroad.

min. 24: Euro 2.5000 x 1

706 - STADIUM HORNS

At last! The new generation compressed air horn: safe, inexpensive and ecological!

This new model does not need a gas canister.

No more need to buy reloads, no more deliveries blocked for hazardous goods inspections, no more gas leaks from half-empty canisters.

As of today, the horn is reloaded simply by operating the hand pump supplied!

Prompt consignment. 24 pcs = 9 Kg./volume.

min. 1: Euro 5.0000 x 1

512 D - PERSONALISED FABRIC FLAGS

Average production time: 15 days.

Weight of 1000 items: 2.80 Kg.

The electronic order form may indicate an incorrect price for some versions of this item. The price will be automatically corrected when the sum total including freight charges is sent.

min. 1: Euro 300.0000 x 1

538 D Q1 - PLASTIC BANNER Q1

Printed in quadrichrome onto PVC with a system that enables the reproduction of photographic images, with no supplement for additional colours and no installation costs. Delivery in approximately 10 days. Measurements: 1 metre = 600 grams. The price indicated is per square metre. Min.5x1,5
Graphics must be sent in scale and JPG format or, preferably, in vectorial PSD with texts saved as plots.

min. 1: Euro 45.0000 x 1

538 D Q2 - FABRIC BANNER Q2

One-sided flag in heavy polyester fabric printed in four colors and finished with hems and eyelets.

The minimum size that can be ordered is 8 square meters and the quoted price is per square meter.

When ordering, type the total size in square meters in the white box and confirm inserting a note with the linear size (base x height). The cost of the fireproof version is 60 Euros per square meter. It is important to remember that the material used has an height of 1.70 meters, which must always be taken into account, even when the actual desired size is below or above, because it may be necessary to cut or add a strip of material. Practical example: a 1x5 m banner is calculated as 1.70x5 and therefore equivalent to 8.5 and not 5 square meters; a 2.5x5 m banner is calculated as 3.40x5 and therefore as equivalent to 17 square meters, not 12.50. Graphics must be sent in scale and JPG format or, preferably, in vectorial PSD with texts saved as plots.

Average production time: 10 days.

min. 1: Euro 33.0000 x 1

539 D - DISPOSABLE BANNER

Reel of white, water-repellent, self-extinguishing fabric-non-fabric, suitable for decoration with synthetic paint. Available in stock. Measurements: 160 cm x100 metres, 9 Kg.

ATTENTION: prompt delivery of the item is available for the colour white, with orders of single rolls accepted. For colours other than white, a minimum order amount of 13 rolls is applicable with a production time of 7 days.

The reaction to fire of this product means that it is fully permitted in those Stadiums where restrictions concerning flammable materials are applied.

If requested with appropriate advance notice, an estimate can be provided for the production in this material of alternative articles to those in stock.

658 - BEACH TOWELS

When it's time to take off your scarf, it's time to take up our 100% cotton towelling beach towels, perfect for the beach, the pool and the gym, and customisable with your own designs and colours.

The most popular model is the BASIC one, in mixed cotton and with a size of 100x180 cm, because it can be ordered even in batches of 30 items only or in batches of 10 items only, by paying an additional fee of 90 euros for the machine set-up in addition to the price per unit specified. Although a maximum of 6 colors can be used, it is possible to process only two at a time. The photo ITALIA CAMPIONE... clarifies this technical concept: 1) the graphic is positioned horizontally and then viewed from top to bottom; 2) the first color is lowered so that it is possible to check how many colors it intersects. In this specific case, green intersects blue only. This occurs also for white and red. This method enables to create a pattern with several colors by intersecting two at a time only! In specific cases, you can also simultaneously use three colors, though the result is less compact and defined. Average production time: 25 days. Average weight per unit: 575 grams. The color of the edge can be specified at the time of the order.

The same machine can also be used to produce small towels and placemats for pubs. Prices are quoted separately.

10 - 30: Euro 90.0000 + 24.0000 x 1
 min. 30: Euro 24.0000 x 1

661 - ROLL-BANNER

Have you ever thought of a banner as something you could easily carry around in your pocket?

This extraordinary item is made of a special plastic material that rolls up like parchment and that can be unrolled at any time by simply pulling the two side handles.

It is available in a size of 750x245 mm and 250 units, which correspond to the minimum order, weigh 9 Kg.

The banner can be customized with logos or slogans on both sides so that you can simply reverse it to change choreography.

The availability of two printable sides is very useful for anyone who wishes to advertise a specific sponsor, because it is possible to print the desired choreography on one side and the promotional slogan on the other.

Another interesting economic feature comes from the fact that it can both be sold as gadget and used by the end-user to create a personal and spontaneous setting.

When it is no longer needed outdoors, the banner can be fixed onto a car or a wall using the suckers available at an extra price of 0.09 Euro.

Prints can be made in 8 different colors, though the colors used on each side are calculated separately. This means that if you use red for one side and red for the other one, these will be calculated as two different colors.

In addition to the price per unit, it is also necessary to consider the actual cost required to set-up the plant, which is equivalent to 240 Euro for the first color and to 90 Euro for each additional color. Therefore, the price shown on the electronic ordering form may be incorrect and will be automatically amended after the patterns have been examined. At this time we will provide you with the total cost inclusive of transport charges.

The average production time is approximately 20 days.

min. 250: Euro 240.0000 + 0.9000 x 1

666 - SPECIAL INFLATABLES

Would you like to materialise a dream?

Have an object, a symbol or form you would like to share with lots of people? We can create it as an inflatable!

Just imagine the spectacular impact: thousands of people lifting the same trophy, supporting the team fighting to win it!

All the more, the inflatable is completely customisable and thus becomes a promotional message generating income rather than expense!

The average production time is about 40 days.

Measurements are about 40x50 cm., depending on the proportions of the object.

The price is always on application since it may vary in relation to the outline, the number of pieces and the number of printing colours.

To give you an idea, the cost indicated below refers to a quantity of 1 trolley-packed set containing 5,000 Champions Cups printed in 4 colours as illustrated.

Although the cost will be higher, we can also provide quotations for only 2,000 pieces.

You must provide high resolution drawings detailing the shape of the object and the customised print work.

Euro 3500.0000 x 1

703 - PENNANTS

Quoting a price for this item is practically impossible!

There are pennants designed for your car with a suction cup, available in pentagonal or rectangular shape sized 6x23 cm, or round with a 7 cm diameter.

Then there are huge standard-style pennants, sized 70x115 cm for instance.

Apart from the size, you can choose to have a rounded tip, or a shield-shaped pennant, a triangular pennant, pennants with bows, a stand or a bag.

Whatever the size or shape, both sides or just one side can be printed, as you prefer.

In short, request a quote by sending us your scale drawing in PSD format, with all the relevant information provided in the notes section.

Average production time: 20 days.

704 - CUSHIONS

Before ordering this item, check the models available and then, on the basis of the style and number of pieces you want, decide how and where to customise it.

One model features a round, 34 cm-diameter

cushion with padded handle finished in PVC.
 These models permit screen-printing in a restricted area of the cushion only.
 Then there is the classic book-shaped model, sized 25x32 cm when open.
 This model comes fully embroidered in up to 5 colours that can be personalised at no extra charge for minimum orders of 50 pieces.
 If your order is particularly large, we can produce the cushion as Item 666 SPECIAL INFLATABLES.
 In short, request a quote by sending us your scale drawing in PSD format, with all the relevant information provided in the notes section.

615 D - PARTY CANNON cm 60

- THE SHIPPING OF THIS ITEM IS SUBJECT TO THE SAME LAWS AS THOSE INDICATED ON THE PAGE "FIRE AND BRIMSTONE"-

Tube with a length of 60 cm, a diameter of 5 cm and a weight of 500 grams that shoots gigantic multi-coloured confetti and streamers through a compressed air system. Each tube shoots one of the following colours: white, green, royal blue, dark red,

yellow, black, orange, purple.

Yet our Party Cannons do not finish their effect after the expulsion of the contents. Our model, in short, is the only one made with a special expedient: the external tube has the same colour as the confetti or shooting stars inside it.

This means that the staging continues with the team colours by shaking the empty tubes.

And if that were not enough, the empty tubes create sounds and acoustic effects when struck against each other... what a performance!

If you purchase a box of 15 pieces of the same colour, you can choose the content of the tubes by indicating either ROUND or STREAMER in the NOTE box.

By choosing ROUND, your tubes will shoot a shower of coloured confetti, with a diameter of 4.1 cm.

By choosing STREAMER, your tubes will shoot a waterfall of coloured streamers, 6 m in length and 2 cm in width.

If you do not indicate a preference in the NOTE box, or if you purchase less than the minimum 15 pieces per colour, we will choose the format for you.

Naturally the shape of the contents is of secondary importance to the colour. So, if stocks run out of your chosen shape, we will still send you your chosen colour, but in the other shape.

The product is not designed for fireworks and is compliant with EEC safety directives. It is always advisable not to point it in the direction of people, as the jet is powerful enough to eject confetti within a radius of 10 metres. To use the tube, remove the protective paper strip on the upper cover,

being careful not to remove the paper below. Take the central section with the left hand and squeeze, with the right hand, the circle that acts as trigger. To start shooting confetti, firmly turn the tube in the direction indicated by the arrow. Prompt delivery.

min. 1: Euro 3.5000 x 1

639 - STRIPED FLAGS

They are made in about ten days by sawing together strips of sailing fabric of any color. The flags have sizes of about 150x200 cm and come with modular plastic poles. The price is the same for all 12 models that can be displayed by clicking the photo of the item. Customized models can also be supplied at prices to be agreed. Minimum order: 10 items = 5 Kg.

min. 10: Euro 12.5000 x 1

640 - SILVER CASCADE

660 - INFLATABLE FUN AND GAMES

Let your imagination run wild with this 100-metre long polythene tube just 20cm thick, to be cut up into desired lengths and blown up to create an endless number of colourful and noisy figures. The photos illustrate just three possible examples:

- Connect pieces of tube to an air source to create any number of life-like figures.
- Shape segments into letters of the alphabet to create your own blow-up signs.
- Blow up and close off two segments to create your own pair of BANG-BANGs (item 619)

The photo shows the letter I of a blown-up TIFO sign.

Tubing comes in coils weighing 3.7Kg. Available in stock in the colours white, red, green, yellow and blue.

Other colours are available with a minimum order of 30 coils, and a production time of approx. 20 days.

Electric air pumps item 552dq2 are available to save you blowing the tubing up

by mouth.

Lasting about a minute, it can simply be lit by a lit cigarette at the white end of the flare. Price indicated per box of 36 flares, weighing circa 700 grams. Available in stock.

min. 1: Euro 12.5000 x 1

662 - BURNING LANTERNS

To really appreciate the great impact of this item it is indispensable that you watch the video.

The film also perfectly illustrates how to use the lanterns.

Burning Lanterns were first used in the period of the Three Kingdoms as an army signal.

Today they are made of bonded fireproof cloth and are used to symbolise a propitiatory act.

As can be seen in the Pantone colour guide, the lanterns are available in a limited number of colours because their spectacularity is achieved to greatest effect using the traditional colours of white or pink.

Prompt delivery. Volume weight: 30 pieces=4 kg.

We strongly recommend that you READ THE INSTRUCTIONS CAREFULLY BEFORE USE.

min. 1: Euro 3.0000 x 1

To receive the total cost, send a request for an estimate as defined in "Help on-line", inserting all additional information in the space for notes, attaching the images of the article and any customisation required.

We will be able to supply you with what you require or an alternative at a competitive price.

Price to be calculated

526 D Q1 - EMBROIDERY

The first price indicated refers to designs embroidered onto garments in general, measuring 7cm in diameter or with a surface area of 49cm². For embroidered label add a supplement of 0.38 Euro.

The installation cost is Euro 115,00 regardless of the number of colours. To calculate the cost of embroidery with a surface in excess of 49cm² simply divide the unitary price and the installation cost by 49 and multiply the result obtained by the

surface, in cm², of the required design. The second price, exempted from installation costs, refers to each letter of a height of 2cm, which composes embroidered wording. The wording must not be composed of less than 6 letters and the characters must be chosen from those in our “FONT” table. Average production time: 15 days.

1: 115,00 ' + 1,50 '

2: 0,15 '.

The electronic order form may indicate an incorrect price for some versions of this item. The price will be automatically corrected when the sum total including freight charges is sent.

1 - 1: Euro 0.6300 x 1
min. 1: Euro 115.0000 + 1.6000 x 1

526 D Q2 - PRINTS

The following table refers to silkscreen printing on garments in general. If the background of the article to be printed is darker than the print colours another colour must be added to create a neutral base. The € 30.98 cost of installations refers to each print colour. Average production time: 15 days.

618 D - HIGH FREQUENCY

The customisation system used by the leading apparel manufacturers of the world is now available also for the supporters' apparel shown in this catalogue. This technique enables to process the materials with laser or injection equipment. As a result, logos and catch phrases or words can be printed in relief, with reflecting or mirroring effects, depending on the combination of rubber, plastic-coated or velvety materials used, to further enhance the characteristics of your badges.

The price of the equipment is 387,34 Euro. The price per unit has to be multiplied by the square centimetres of the surface where the customisation has to be applied. Average turnaround time: 20 days.

The electronic order form may indicate an incorrect price for some versions of this item. The price will be automatically corrected when the sum total including freight charges is sent.

250 - CIAO - Party Items

This is a category unto itself, with its own huge, 700-page catalogue.

The catalogue features around 2,800 items taking up over 200 MB of disk space!

This is why we cannot include the items on website as we usually do. Instead we will send you the catalogue on CD at your request.

The items include everything you will ever need for Halloween, Christmas, New Year's, Epiphany, Carnival and dress-up parties.

The items are divided into various categories such as costumes, masks, wigs, hats, make-up, toy guns, practical jokes, streamers, favours, sound effects, gadgets and various accessories.

All this goes to show how with T.I.F.O. it's party time all the time, whether you're on the terraces at the football ground, or at a night-club or private party.

Just choose the option CD from the scroll-down menu to

order the catalogue at the price shown. Remember

that a new version will be available every year.

Choose the option ART to request the overall cost

and availability of various items, once you have received the CD catalogue.

To specify how many items and anything else you need just indicate the number you want in the 'Notes' section of the order form.

The unit costs, item codes, type and number of pieces

contained in each box are shown in the price list on the CD.

This should stop you from placing orders of less than 100 euros, which we cannot take into consideration.

Users with a broad-band connection who wish to save the costs of mailing the CD can download directly from our site, although this will take a couple of hours.

If you send a request by e-mail, you will receive the link to access the dedicated

page with username and password for download and an enclosure with the price list.

553 - GREAT POMPONS

The pompons are made in tissue paper and consists of 35 mm fringes held together by a handle and an elastic band. Besides being biodegradable, tissue paper can be easily dyed in beautiful colors that don't stain. The most important characteristic of this material is however yield. The extra fine strips of paper that make up the tuft are crisped and placed in tight and sealed bags. Once you remove it from its bag, the pompon 'explodes' in all its spectacular volume. Minimum order: 32 items. Weight/Volume ratio for 32 items = 10 kg.

Prompt delivery for small orders. For large orders of at least 3,000 items, with tufts of several colors, or for models in metal gold or silver, the cost per item is Euro 12,00 and the average production time is around 15 days.

211 - GLADIATORS**ORIGINAL ULTRAS**

Reproduction of the famous wall painting from 59-79A.D. depicting a brawl that broke out in the amphitheatre of Pompeii, kept in the National Archaeological Museum in Naples. Tacitus (The Annals XIV, 17) recounts that in 59A.D. during a gladiatorial show exhibited by Livineius Regulus, a petty brawl between the inhabitants of Nuceria and Pompeii soon degenerated into bloodshed, leaving many dead and wounded, especially amongst the people of Nuceria. In Rome, the Senate reacted by suspending all public events in Pompeii for ten years, dissolving the illegal associations formed, and punishing Livineius and those who had stirred the crowd to violence with exile.

Vintage-effect t-shirt in natural, artificially-aged, unbleached cotton. Available in

sizes M-L-XL-XXL.
